Rhodes State Offering Computer Classes

LIMA, Ohio – Rhodes State's Division of Workforce, Economic Development and Continuing Education is continuing its partnership with Connect Ohio and their statewide Every Citizen Online broadband training project.

These free classes include six hours of hands-on instruction about computer basics, such as Windows 7, an introduction to the Internet (using Internet Explorer 8), and email basics (using Outlook and webbased email options). The courses are geared towards adults with little or no computer experience.
